ABOUT

Currently studying at Ironhack's Web Development bootcamp in Miami, FL.
I have been living here in Miami for 6 years now working as a chef de cuisine, sushi chef and kitchen manager. After working for a few years I felt the desire to change career and learn something new. While searching for possibilities I noticed how attracted to coding I was and so a great school had to naturally be part of the plan. My goal is to keep learning software engineering until I can become a great asset/associate to a reputable company.
